"Are you crazy! What has reading the Bible to do with keepng your hand in your pocket? And mustn't we do what the Bible tells us, mother?"

"Certainly, my child."

"Well, mother, it says: 'let not thy left hand know what thy right hand deth,' and don't you suppose it 'ud know I was eatin' bread and ' lasses with the right if I didn't hide it away?"

"Ah, what a bright boy ! you'll never want for bread and 'lasses.'

A young lady who had recently returned from the country, was asked by an innocent "society" youth, how she managed to ainuse herself during her absence. She replied that she found no dificulty, and after enumerating various sports, told what capital fun she thought fishing was. Upon this the youth "wished he might have been caught." He was finally told that it would have been useless, as "she was not fishing for suckers."

"DAN," said a little four-year old, "give me six pence to buy a monkey."

"We've got one monkey in the house now," replied the elder brother.

"Who is it, Dan?" asked the little fellow.

"You," was the reply.

"Then give me six pence to

buy the monkey some nuts." His brother could not resist.

A LITTLE four year old miss hearing a gentleman addressed at her father's house as "Joseph," eved him intently for a while, and then asked: "Was you the Mr. Joseph that was sold by his brethren?" "Yes," replied the gentleman, "I have been sold a great many times, my dear." "Ch! I was so sorry for you!" said the little kindly heart.

"My love," says Mrs. Foozle to her husband, "oblige me with a five pound note to purchase a new dress," "Shan't do any such thing."

The shanks of the teeth are elastic, and exert a uniform distension in the sockets.

The stability of the plate is in no way affected by inserting new sets of teeth.

Each tooth, independently, may be adjusted to the cutting line.

No rivets, keys, or other objectionable appliances, are employed in connection with the teeth, which are as simple in construction, and as easily used, as a nut for a bolt.

In short, all the difficulties heretofore experienced in the use of movable teeth for saws, are fully met and obviated by this invention.

Notice.

Columbia, S. C., January, 1870.

The Charlotte Columbia and Augusta Railroad Company having been formed by the consolidation of the Charlotte and South Carolina and the Columbia and Augusta Railroad, and having executed a first and only mortgage on its entire property of 195 miles. Including equipment, is now redeeming all the bonds formerly issued by said two companies by an exchange of its first mortgage bonds. These bonds bear seven per cent. interest, payable in January and July, and are amply secured by a mortgage on property which cost per mile more than three times the smount of bonds so issued.

The present price of the stock and the business of the road give ample guarantee of the security of the obligations for a permanent investment. Indeed the opinion is freely expressed, that there is no safer bonds issued by any party or corporation in the State, and they are cheerfully commended to capitalists as a safe investment.

For the purpose of funding the floating debt
